

UPDATES

Updates to the revised 2007 Comprehensive School Health Manual will be housed on the Massachusetts School Health Manual website as they become available.

To access these updates, visit:

<http://www.mclearinghouse.com/schoolhealthmanual/updates.htm>

Updates will be made periodically when sections of the manual are no longer up-to-date or when new regulations are promulgated.

Note: If the reader finds a web link that does not work or has been changed, we ask that it be reported to the Department of Public Health via the Online Feedback form:

http://www.mass.gov/dph/about/feedback/feedback_health.htm.

When using the feedback form, be sure to include the following in the subject line: School Health Manual – Broken Web Link.

Thank you.
